WorkForce® Pro WF-C5810

Replaceable Ink Packs System (RIPS)
WIRELESS I PRINT I COPY I SCAN I FAX I ETHERNET

WorkForce® Pro multifunction printe

Color printer designed for reliability and high-productivity

Main features

- Performance beyond laser: PrecisionCore® simple, smart, clean design is breakthrough print chip low waste, across a wide range of applications.
- **High performance and great value:** save up to 25 percent on replacement ink vs. color laser toner³.
- Lowest power consumption in its class¹: powered by PrecisionCore Heat-Free® technology , the next generation of inkjet printing technology.

Designed for use exclusively with Epson ink packs.*

- Powerful business productivity: print speed of 25 ISO ppm (black/color)† with virtually no warmup time; fast first page out for quick and seamless printing.
- **Compatible with Epson® Solutions Suite:** including Epson Remote Services, Epson Device Admin and Epson Print Admin.
- **Minimize your interventions:** Replaceable lnk Pack System (RIPS) lets you print up to 5.000 ISO color pages or 10.000 ISO black pages with replacement ink packs²; 1.830-sheet capacity with three optional trays.

*This product only uses original Epson brand ink packs. Other brands of ink are not supported and even if they are described as compatible, they may not work properly.† Black and color print speeds are measured in accordance with ISO/EC 24734. Actual print times will vary based on factors including system configuration, software, and complexity of the page. For more information, visit www.epson.com/printspeed.† Maximum print speeds are measured with draft mode text patterns on plain paper. Exact print times will vary begending on system configuration, software, and complexity of pages.†† Color and black copy speeds are determined in accordance with ISO/EC 29183. Actual copy times will vary based on factors including system configuration and page complexity. For more information, visit www.epson.com/copyspeed1 Compared to similarly featured color laser printers with speeds of 30 ppm or less based on available industry data from March 2022. Actual energy savings will vary by model and product usage. 2 Replacement ink pack yields are estimated based on ISO/EC 24711 its lesting in default mode with continuous printing, ink pack yields vary considerably for reasons including images printer, with pack after the "replace ink pack" signal. For more information, visit www.epson.com/inkinfo 3 Actual savings will vary based on print tasks, print volumes and usage conditions. Savings comparison based on the cost of purchasing the packages of replacement ink and the cost of enough color toner cartridges to achieve the full page yield of the inix packs using manufacturers' online prices and yields for the highest capacity toner cartridges for best sellers on a regular basis. similar to featured color laser printers with speeds of 30 ppm or less based on available data of the industry as of March 2022 4 PPOT is measured on letter-size paper in accordance with ISO/EC 17629. FSOT is measured on letter-size paper in accordance with ISO/EC 24734. FCOT is measured on letter-size paper in accordance with ISO/EC 29183. 5 The monthly duty cycle is the highest duty that a user can expect in a month, based on the almost constant operation of such a device. The device is not recommended to work with this duty. For best appliance at the recommended monthly page volume 6 Most features require an Internet-enabled device. Internet and/or email. For printer as well as an Internet-enabled device. Internet and/or email. For printer as well as an Internet-enabled device. devices and agos, visit www.eson.com/connect 7 Scan to the cloud requires an Internet connection, a free Eoson Connect account, and a destination email address or cloud storage account. For a list of services cloud services, visit www.eson.com/connect8 Wi-Fi CERTIFIED™: performance level subject to the range of the router being used. Wi-Fi Direct may require printer software 9 Printing is only supported on Windows Server operating system. 10 Some applications and/or functions may not be compatible with Mac OS X and macOS. 11 The definition of size of RAM is the total amount of RAM capacity within the device, regardless of memory usage. 12 Internet access is required to install Mac OS X and macOS drivers and software. 13 For convenient and reasonable recycling options, visit www.epson.com/recycle
